Professional Summary

I am Rojesh Thapa, a passionate and dedicated BSc(Hons) Computing student at Itahari International College, Nepal. With a strong interest in full-stack web development , I have been actively building skills in technologies like React.js, Node.js, MongoDB, and Java. I enjoy creating practical software solutions—such as management systems in Java and Python—and I am continuously exploring the MERN stack to become a proficient full-stack developer. My long-term goal is to contribute to Nepal's tech landscape by establishing a IT company that bridges the gap between technology and everyday users.
